Re: Letter of Recommendation and Thank You

Dear Mike:

My business partner Kathy and I personally wanted to thank you for all you have contributed to the Anita's Gardens project. I know it was not an easy one for you. The first architect firm hired from Illinois said we should walk away. Then you were hired from Haag Muller with a "can do" attitude. Well Mike you said upfront that because this was a retrofit project we would most likely run into some roadblocks and that's exactly what happened. But what we did not expect was to have you right beside us every step of the way.

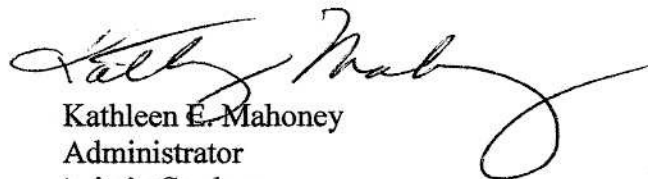

Kathy and I just wanted you to know we appreciated the lunches you missed every Wednesday to be at our contractors meetings. At times, you grabbed the bull by the horns and dealt with the various government engineers and agencies on our behalf. Believe me, I know you could have said this is not part of my contract - but you didn't. Your perseverance in overcoming all of the obstacles is greatly appreciated.

You put your heart into this project as did we. You never met the woman our facility is named after but she would have liked you. She always believed that the hardest job was the one that touched your heart, like being a nurse's aide. The professionalism and dedication you have exhibited make you a credit to your profession. The caring and heart you put into it makes you a friend. We would gladly work with you and Haag Muller anytime.

Thanks again,

Bridgette M. Benavides
