Dear Ted:

On behalf of Beeler Construction I would like to commend you and your staff for the excellent architectural and engineering services you provided on the Yeshiva Elementary School as the design arm of our design-build team.

This project had a very aggressive budget and schedule and your office was there at every turn working with us and the owner to accomplish our goal; efficient, practical, functional and cost effective design. The results of our combined effort was a building completed on schedule, within budget and the owners couldn't be happier.

I look forward to the next opportunity of teaming with your office.

Thanks again for a job well done.

Sincerely Yours,
