Re: Milwaukee Billy Mitchell International Airport  
Food Court Design and remodel  
Miller Brewhouse remodel

Dear Ted:

Well, it's almost finished and what a great project it's been.

The Food Court and Miller Brewhouse never looked so good. I am very impressed with your company and the services you provide. The design fits perfectly for all travelers through the Milwaukee Airport. We started with an artist's vision and you turned it into reality. The leadership and coordination you provided throughout all the phases was timely and professional. I have been working with architects for 37 years and would say that your firm is one of the top firms that I have had the pleasure of working with.

Thanks for the special effort that your lead architect, Steve Jeske exhibited in the presentations and coordination that were required. He was on top of the project throughout the entire 6 months we were under construction.

Please put me on your reference list. I heartily recommend your firm to others seeking professional architects.

I look forward to working with you on other HMS Host projects.

Sincerely,

A handwritten signature in blue ink, appearing to read "Roland Yates".
