Dear Mike,

We would like to thank you and your staff for a job well done in the design and completion of our restaurant, Cream City Custard, on 84<sup>th</sup> and Greenfield, in West Allis.

Your professionalism and expertise made this project a great experience for us. It was amazing to watch what was originally a drawing on a piece of paper, take shape and form and come to life. You took an empty lot and transformed the entire neighborhood with a very impressive structure. The results are far better than we had ever envisioned when it was still in the planning stages.

I would also like to thank your interior designer Kristy Bokelman. Colors affects our emotions. Red was an excellent choice because it attracts the eye and stimulates our metabolism. Yellow is a wonderful brightener. It is cheerful and warm like the sun. It might also inspire us to create new custard flavors!

Once again, we thank you for your professionalism, your insight and your outstanding work. We look forward to working with you in the future!

Sincerely,

A handwritten signature in blue ink, appearing to read "Chris Karabelas", written over a light blue horizontal line.
